

CF&S

The Art of Logistics

If You can imagine it,
we can ship it!

CF&S Group provides large variety of high-quality and professional logistics services all over the world. Our services include container-, road-, railway-, sea-, high & heavy-, multimodal- air transport solutions and warehousing, distribution, as well as chartering and ships agency.

Warehousing & distribution

We operate our own warehouse complexes in Tallinn and Venlo.

The warehouse complex consists of:

- A-class heated warehouse
- Secured closed area
- Customs bonded terminal and warehouse

In addition to the standard warehouse services, we provide:

- Monitoring the condition of incoming products
- Value added services (labeling, repacking, etc.)
- Customs agency services
- From our warehouse complexes we take care of the distribution and collection of your pallets in Europe.

Container transport

We offer two modes of container transportation:

- Full Container Load (FCL).
- Less than Full Container Load (LCL).

Our advantages:

- A diverse, worldwide network of agents with decades of experience.
- Regardless of size, we are dedicated to every last detail for our clients.

Main directions:

China, Japan, Korea, USA, Canada, Australia, India

Road transport

Organization of road transportation in Europe using our own fleet of trailers, as well as an extensive partner network throughout Europe, which supplies us with the necessary number of transport units.

Main directions are:

Germany, Poland, Spain, Baltic states, Benelux, United Kingdom, Switzerland, Italy, Scandinavia, Balkans, Turkey, France.

Services:

- Transportation of full truckloads (FTL) and groupage cargo (LTL)
- Transportation of thermo, dangerous (ADR) and oversized cargo
- Multimodal transport
- Customs clearance, transit declaration and cargo Insurance
